DETAILED ACTION

The last office action is hereby withdrawn in view of Applicant's arguments.

Note that claim 4 has been amended to include the limitation of amended claim 1, which has been withdrawn from consideration. However, the new amended claim raises some confusion, as stated below;

Claim Rejections - 35 USC § 112

Claims 4, 6,7 and 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Note that the amended claim 4 recites the limitation " R1 and R2 are independently of each other an organic substituent, is C6-24 aryl or C2-20 heteroaryl each of which optionally can be substituted, and R2 is H".

This raises the problem in that it is inconsistent with the amended claim 1 in that " and R2, are independently of each other an organic substituent" has been deleted; and it is inconsistent with the claimed condition "R2 is H".

The claim also raises other problem in the use of "X1 and X2 are independently of each other a divalent linking group which copolymer also comprises a comonomer T which is selected from the group consisting of ---" . It seems that the formulae cited below that are the claimed comonomer T. However, that is not correct if you read claim 6 and 7 limitation in that comonomer is optional since y, the repeating unit of said comonomer can be 0.

Claim Rejections - 35 USC § 102

Art Unit: 1796

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 4,6,7 and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Chem Abstract 128: 308835.

The reference discloses poly(aryl ether)s containing the pyrimidine moiety having the claimed formula (I) in that R1 is C6 phenyl, X1 and X2 are phenyl groups in which R6 and R7 are H, n1=1 and the comonomer T does not exist with y=0.
